## A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times: "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe it. A physician recognizes iron as the best restorative agent known to the profession, and in any case, there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfect, or satisfactory iron combination had ever been found. BROWN'S IRON BITTERS is the only iron medicine that cures the most common ailments of the human system, such as: Headache, or produces constipation—all other iron medicines do. BROWN'S IRON BITTERS cures indigestion, biliousness, weakness, dyspepsia, malaria, chills and fevers, tired feeling, general debility, pain in the side, back or limbs, headache and neuralgia—for all these ailments iron is prescribed daily. BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by the first symptom of illness is reported, the medicine then becomes a powerful, the digestion improves, the bowels are active, the eyes begin to clear, the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. Physicians and druggists recommend it. The Genuine has Trade Mark and crossed red lines on wrapper. TAKE NO OTHER.

## NEWS FROM THE CAPITAL.

### THE DIFFERENCE BETWEEN J. FLOYD KING AND CUTHBERT JONES.

**Firm Belief That There Will Be Cold-Blooded Murder or a Duel—Jones Has Two Insurance Policies On His Life.**  
**Other Washington News—Notes.**  
WASHINGTON, Jan. 21.—Representative J. Floyd King, of Louisiana, who has been shying clear of Washington almost a year, for some reason not well known, and who was in this city challenged by Cuthbert Bullitt Jones to fight a duel eighteen months ago, publishes a card this morning giving his version of the affair with Jones in a barbershop here Tuesday evening last.

He declares that Jones struck him, but admits that Jones, who was accompanied by his brother, uttered for some moments the most offensive and brutal language, such as a would-be-assassin would employ when seeking an opportunity to commit murder under the disguise of the law, meaning occupying advantageous positions twelve or fifteen feet apart. King declares that Jones brother entered the barbershop to get him into a villainous trap; that Cuthbert Jones held a cane in one hand and kept the other hand in his hip pocket; that he was menacing by deadly purposes, and had he (King) been armed would have felt justified in destroying Jones.

He declares that Jones' father and an older brother were lynched for murdering Gen. E. J. Davis, of Louisiana, and that he (Jones) escaped the same penalty only by flight, and that Jones is now attempting to get him into an imbroglio for the purpose of murdering him, his excuse being that he (King) has spoken unkindly of Jones' mother, when, in fact, it is because he refused to get him a consulate. It is believed that this will end in murder if one of the parties does not leave the city. Jones showed a friend of the other day a couple of insurance policies, and pointed out with pride a clause which makes the obligation to pay binding where the insured, a year from the issuance of the policy, suicides or is killed in a duel.

**Senate.**  
WASHINGTON, Jan. 21.—A message from the president was presented, voting the bill granting a pension to William Dickson, on the ground that a pension had already been granted the beneficiary in December last, through the pension office. Referred.

Mr. Jones, of Arkansas, reported two senate bills from the Indian affairs committee, granting right of way to the Spokane & Pelouse, and the Washington & Idaho Railroad companies through the Goshute Indian reservation. Calendar.

Mr. Conger, from the commerce committee, the house bill amendatory of Section 5, of the act of June 10, 1850. The amendment provides for the immediate transportation of dutiable goods.

Mr. Hoar said that an amendment of his, which had received the approval of the secretary of the treasury, had not been laid before the committee. He would therefore ask that the bill go over, which was agreed to.

Mr. Mahone reported a bill for the completion of the monument to the mother of Washington. Calendar.

Mr. McPherson introduced a bill to amend the act authorizing the construction of the Arthurkill bridge. He said the bill did not propose to interfere with the construction of the bridge; all that was desired was that it should be constructed in a manner not detrimental to navigation. It asked immediate action on it by the commerce committee to which it was referred.

Mr. Blair gave notice that he would ask the senate on Tuesday next to consider and act on the joint resolution proposing a constitutional amendment authorizing woman suffrage.

**House.**  
WASHINGTON, Jan. 21.—Mr. Outwater, of Ohio, from the Pacific railroads committee, reported back the resolution calling on the secretary of the treasury to inform the house as to the amount of indebtedness due the United States on January 1, 1887, by the Pacific railroads, and aided by the government and by the effect of house bill No. 311, should it become a law, on such indebtedness. The resolution was adopted. Bill No. 311, a bill introduced by Mr. Outwater April 20, 1886, providing for the payment to the government of the Pacific railroads, indebtedness by installments so arranged that the average date of maturity shall be October 1, 1921.

The committee in its report on the above resolution, says: "There is legislation pending to secure to the United States the payment of all the indebtedness of the companies alluded to in the resolution. No information can be obtained from any reports made by the department as to the amounts owing the government by the companies later than June 30, 1886." Continuing, the report says that the information desired from the secretary of the treasury is most necessary in order that there may be a fair and intelligent consideration of the proposed measure.

Among the committee reports submitted and referred were the following: Senate bill for the admission of the state of Washington; a bill for the suppression of the opium traffic; a bill for the completion of the monument to the mother of Washington, at Frederickburg, and a bill authorizing the commissioner of agriculture, to make a special distribution of seed to the drouth stricken regions of Texas.

Then in the morning hour, Mr. Martin, of Alabama, from the patents committee, called up the senate bill which was passed amendatory of the patent trade mark and copyright laws. The bill makes it unlawful for a person to use the design of another without permission under penalty of a fine of \$200. The offender is also made liable for civil damages in excess of the fine.

Mr. Conger, of Iowa, called up the bill increasing the rate of pensions for total deafness to \$20 per month.

The morning hour expired without final action on it.

The consideration of the conference report on the interstate commerce bill was then resumed.

On motion of Mr. Crisp, of Georgia, it was ordered by unanimous consent that the discussion on the report should continue at a night session, and that the vote on the adoption of the report should be taken after the

Journal was read to-morrow.

Mr. Caldwell, of Tennessee, supported the compromise bill to one that would correct great evils.

Mr. Dobbie, of South Carolina, favored the recommitment of the bill to the conference committee, because it was ambiguous. He thought that this action would not endanger the passage of the bill.

### NEW YORK'S NEW SENATOR. Frank Hiscock Selected By the Republicans on the Eighteenth Ballot.

**ALBANY, N. Y., Jan. 20.**—On the eighteenth ballot of the joint Republican caucus last night Congressman Frank Hiscock was nominated United States senator. Ninety-three members were present. For seventeen ballots there had been a deadlock, Warren Miller standing 40, Levi Morton 30, Hiscock 11. Just before the last ballot Mr. Ervin, who nominated Morton, arose and withdrew the name of Morton. The silence, which had been intense, was broken by deafening cries. The Hiscock men foresaw victory, while the Miller contingent realized their defeat. Another ballot was taken and Hiscock secured the nomination by a vote of 50 against Miller's 43.

In the next six years, if he shall live, the people of the United States are likely to become very familiar with the name of Senator Frank Hiscock of New York. Mr. Hiscock is not only handsome, as anyone can see from his picture, but he is also smart and plucky. He will represent, on the floor of the United States senate, the wealthiest and brainiest constituency in the world, and nobody will know it better than he. He is fifty-three years old. He was born in that favored section of New York whose villages and cities are all named from the heroes and heroic cities of old. His native village is called Pompey. He was elected to congress ten years ago. He is an able lawyer, and a genial, good fellow. He is poor.

### DEADLOCK IN INDIANA.

**Another Vote for Senator Does Not Change the Situation.**

**INDIANAPOLIS, Ind., Jan. 20.**—Governor Gray is actively working with Representative Robinson, a Democratic Knight of Labor, who is supporting Allen, to prevail upon him to vote for Turpie. Gray says if the deadlock continues, so that there will be no election, he will appoint Turpie. Republicans are now endeavoring to break yesterday's agreement, and if they succeed there will be music.

The joint convention assembled at noon, with all the members present. The protests entered yesterday against the legality of the votes of various members will be continued until an election shall result. Balloting for senator was begun under subdued excitement, the Democrats being hopeful that Robinson would relent, and the Republicans seemingly expecting that something had occurred to bring back into the fold the three truants who voted for Allen.

A call of the senate developed no change from yesterday's vote—Harrison, 13; Turpie, 32. The minority of the house roll was broken by Representative Askew, Democrat, who voted inadvertently for Harrison, but quickly changed to Turpie and a roar of laughter. Coats, Glover and Mackey voted for Allen as usual. Robinson's name was awaited with breathless interest. He, too, voted for Allen, and the knights in the gallery applauded, while the Democratic hopes fell. This left the vote as yesterday—Turpie, 43; Harrison, 53; Allen, 4. The convention adjourned no nearer a senator than when they began voting.

### The New York Press Comments.

**NEW YORK, Jan. 20.**—The Times, commenting on the nomination of Mr. Hiscock, says it is one for which the party and the state have every reason to be satisfied. He is a much stronger man as to mental force, experience and capacity for legislative work than either of his immediate competitors. He has an unblemished reputation and in his career in the house he has won and deserves the respect of all parties for his candor, courtesy and fairness.

The Tribune hails with delight the nomination of Mr. Hiscock over both Miller and Morton, not because either of the gentlemen mentioned was unfit to represent the Republican party in the senate, but because the choice of Mr. Hiscock must be accepted as an effort of the Republican majority to escape from the bitterness the present canvass might have engendered.

The Herald says: Mr. Hiscock is a very young man and his record is clean. He is able, clear-headed and a good worker. He has his opportunity; let him make use of it for the good of the people.

The World says: Intellectually, Mr. Hiscock is perhaps better qualified than either of his competitors for the office of senator. His services in the house as one of the Republicans has given him acquaintance with national affairs much more complete than that of most of the new senators who have been elected this winter.

The Sun says: The election of Mr. Hiscock for senator is fortunate for the Republicans. His record is honorable, and he has attested his ability on many occasions. His party has shown wisdom in making him senator.

## NO WEDDING IN THE JAIL.

### MOTHER VAN ZANDT UNDERGOES A CHANGE OF HEART.

The condemned husband acknowledges his guilt in free love—The infuriated daughter to be removed from the city—Her career at Vassar.

**CHICAGO, Jan. 21.**—A reporter for a local paper called at the Van Zandt residence and was received by Mrs. Van Zandt, who said she would speak for her daughter. Her attention was called to an interview with Spies wherein he said: "After all, the refusal to permit the ceremony makes little difference. It is only a mere ceremony, an empty formality, and will not change our relations in the least. The young lady has too liberal ideas to be affected by the despotic order, much more than I myself am, and, with her acquiescence, remember we will waive all ceremonies, and when the time comes, we will live as husband and wife."

Spies said he was a believer in free love in a spiritualistic form. Mrs. Van Zandt's eyes flashed as she said: "I would rather see my daughter lying dead before me than living on such terms with any man. I would kill her with my own hand first. If that is the kind of a man Spies is I am glad we have found it out in time."

Mrs. Van Zandt, speaking of the manner in which she became acquainted with the Anarchist, said: "We all work a great deal among poor people; it has come to be a sort of religion with all of us. I have made many sacrifices myself in order to aid them, and I became first interested in the Anarchists because I thought I could do them good. Then I arrived at the belief that they were innocent men, and I grew to like Spies personally, and thought I was doing his soul good. When I found that my daughter loved Spies the thought of her marrying him seemed dreadful at first, but it was her idea to marry him after he was released. So it went along by degrees, and we didn't see the consequences clearly."

In conclusion Mrs. Van Zandt intimated that measures would be taken to remove her daughter from the city for some time, and said that they would probably remain away until the Anarchist case was finally disposed of by the courts. The radical members of District Assembly No. 24, last night condemned Sheriff Matson's conduct as an arbitrary exercise of power and his refusal to admit Miss Van Zandt to her lover's presence as brutal in the extreme.

### Miss Van Zandt at Vassar.

**POUGHKEEPSIE, N. Y., Jan. 21.**—In an interview yesterday afternoon one of the authorities at Vassar college said: "I have read considerable about Miss Nina Van Zandt's Chicago experience. She came to Vassar in 1883, but I had known her before, in 1880, when she was a child attending Wilson college, at Chambersburg, Pa. I was much amused by reading a statement about her mother. She was a sweet little woman, but it was easy to see when mother and daughter were together which held the controlling power. It was not the mother. But Nina was a little girl then, and of course, like all little girls, she was full of childish things."

"During the first three or four months she was here she neglected her studies and I had to send for her and remonstrate with her. Suddenly she formed an intimate acquaintance with one of the pupils of the college, a girl whose sole desire was to study and accomplish all she could in the way of learning. Then Nina commenced to study hard, and she worked at her lessons night and day. Indeed, she was studying too hard, and I urged her to use more exercise and join the pupils in their amusements, but she did not. She was persistent in everything she attempted to do, and she was ill-balanced and eccentric. We were watching her all the time, fearing she would do something extraordinary. We feel impressed with the idea that she wanted to do something that nobody ever thought of doing. She remained here for two years, and when she went away we all felt that we had been relieved of a great responsibility."

### Veterans' Union.

**WASHINGTON, Jan. 21.**—The first National encampment of the Union Veterans' union was held here last night, Commander M. O. Dillon presiding. The organization is composed of soldiers who served at least six months at the front, or were wounded before that length of service. Over one hundred delegates, representing eighteen states, were present. After the appointment of a number of committees a "camp fire" was held, at which speeches were made by Senator Voorhees, Congressman Pettibone and others.

### Soft Coal Causes a Fire.

**PROVIDENCE, R. I., Jan. 21.**—Investigation into the cause of the fire at the Rhode Island Electric Light station Saturday by which the engineer and fireman lost their lives, shows that it was due to the use of soft coal under the boilers. The fireman did not understand how to use this coal, but was unable to get hard coal on account of the scarcity caused by the coal handlers' strike. This disposes of the theory that the fire was caused by the electric light wires, and the insurance will be paid.

### Bituminous Coal Cool.

**PHILADELPHIA, Jan. 21.**—It is officially stated that the bituminous coal interest have agreed upon the pool percentages and thus given the representatives of several of the southern companies to obtain the assent of their principals. These replies are expected to be returned to Mr. Mayer, of Baltimore, to-day.

### Bingham, the Murderer, Arrested.

**RALEIGH, N. C., Jan. 21.**—Governor Seales has received a telegram from Knoxville that a detective there has arrested Bingham, the deaf mute murderer of Miss Turlington, but is unwilling to surrender him until thereafter for his capture is increased from \$400 to \$700.

### Death of America's Leading Welsh Bard.

**ROME, Jan. 21.**—John Edwards (Eos Glan Twrch), leading Welsh bard of America, died here this morning, aged eighty-one years. He was president of the first Welsh literary society organized in New York city in 1865.

## REV. EDWARD M'GLYNN'S CASE.

### The Doctor Deposed After He Refused to Go to Rome.

**NEW YORK, Jan. 21.**—Archbishop Corrigan still declines to say whether the report that Dr. McGlynn has been suspended by the order of the pope, is or is not true. There are, however, substantial reasons for stating that it is correct, and that Dr. McGlynn has been permanently suspended from the performance of his priestly functions by the holy see. But it is not true, as has been stated, that this was done before the appointment of his successor at St. Stephen's. The order did not arrive until Monday night, nearly three days after Father Donnelly had been installed.

This act on the part of the Vatican authorities is the result of a direct refusal by Father McGlynn to obey the first summons ordering him to Rome. The second suspension of the doctor is not like the first, which was imposed by Archbishop Corrigan, due to the expression of views on the land question contrary to those which the Catholic church claims to hold, but is administered because the doctor refused to obey the papal summons. The first was, in a sense, trilling in comparison with the second, but it must not be inferred that the severest possible punishment has been meted out to Dr. McGlynn. Suspension, even by the pope, does not deprive the doctor of any of his priestly functions; it only forbids him to exercise them.

The pastor of a Catholic church in this city to-day told a reporter that every priest in the diocese had been prohibited from discussing any phrase of the McGlynn case in public by the archbishop.

A reply was received to-day from Archbishop Corrigan as to the communication sent him by the sub-committee on Tuesday. It was addressed to John J. Fessey, chairman of the committee. It was read at the meeting of the committee held at 455 Third avenue, but its contents were kept a secret. It was rather long. Whatever its import, the committee seemed to be considerably moved by it. The members went out of the room one by one, and remained away for over an hour. Then they came back, and, after another hour's consultation, sent this note out to the reporter:

"The committee has received a communication from his eminence the archbishop, and they also want to see the Rev. Dr. McGlynn, and found him in such a condition that his physician will not permit him to see his near friends."

The members said they could not make anything known until they had reported to the main committee Friday or Saturday. "One thing you can say," added Mr. Martin, "and that is that our work has been entirely satisfactory to us, and that we are going right ahead with it."

### Blaine's Opinion.

**NEW YORK, Jan. 21.**—An Augusta, Me., dispatch says that Mr. Blaine, in conversation about Mr. Dawes' election, remarked: "Senator Dawes cannot afford to accept his election under such circumstances. If I were in his place I would resign and let another election take place. But I suppose a bird in the hand, etc." and the ex-senator smiled sarcastically. Mr. Dawes, although a Republican candidate, was re-elected senator from Massachusetts yesterday by the Democrats, who realizing the impossibility of electing one of their own number, turned in and voted for that Republican candidate who they believed was the weakest man. The Democrats shrewdly guessed their move would split the Republican ranks, rendering Democratic victory comparatively certain next time. Senator Dawes is disliked by the Republicans. He himself was the most surprised man in the country when informed of his re-election.

### Suicided With Paris Green.

**CINCINNATI, Jan. 21.**—A mysterious case of death from poisoning took place at Race and Water at 1:30 a. m. Mrs. Mary McHale, aged thirty-eight years, wife of James McHale, a well known Democratic politician and ex-senator, policeman, breathed her last after suffering terrible agonies for nearly twelve hours from the effects of Paris green, taken with supposed suicidal intent. Mrs. McHale had been sick for some time and had drunk considerably, which had to a certain extent unstrung her nerves. She had been jealous of her husband for some time, and it is claimed that this may have been the immediate cause of the suicide.

### Enforcing Laws Protecting Passengers.

**NEW YORK, Jan. 21.**—The steamship Adriatic of the White Star line, which sails for Liverpool to-day, will take no passengers, as the inspectors of foreign steam vessels have reported to Collector Magone that the cross-heads of one of the cylinders is cracked, and the company will not repair her on this side of the ocean as required by law. The State of Pennsylvania, which had four boats lost during her last voyage to this side, will also leave without passengers, as the company will not replace the boats on this side. The law in regard to the safety of passengers on ocean steamers is being very strictly carried out by the inspectors.

### Demands of Indiana Miners.

**BRAZIL, Ind., Jan. 21.**—The block coal miners in this district in mass convention yesterday rejected the offer of the operators of sixty-five cents as the minimum, with five cents addition for every three inches thereunder, as a scale of prices for next year, demanding eighty cents. The matter will go before the state convention of miners and operators at Terre Haute, thence before the Miners National Federation at Columbus, O., February 18. It is feared the Indiana block miners will withdraw from the Federation if they do not gain their demands.

### Tariff League in Michigan.

**GRAND RAPIDS, Mich., Jan. 21.**—The Tariff league of Grand Rapids was organized here Tuesday night with forty members. It was decided to invite James G. Blaine to come here and deliver an address on the tariff in February. Mr. Blaine will be in Detroit then to attend the annual banquet of the Michigan club. Branches will be established throughout western Michigan, and an ultimate consolidation is looked for. The whole movement is a boom for Blaine.

### Mayor Hewitt Improving.

**NEW YORK, Jan. 21.**—Mayor Hewitt has so far recovered from his recent attack of rheumatism that he is able to walk about his room without much pain, and is able to sign such necessary papers as are brought to him daily by his private secretary.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,  
Proprietors.

FRIDAY EVENING, JAN. 21, 1887.

The Lawrence County grand jury at its last session found one hundred and nineteen indictments.

MADISON County property is assessed this year at nearly \$10,000,000, an increase of about \$3,000,000.

CONGRESS will likely fail to grant Mrs. Logan a pension, but she won't be left penniless. The fund for her benefit now amounts to \$60,000.

The beer traffic at Hopkinsville is said to have amounted to \$150,000 last year, but the local option business will cut it down to nothing after the 1st of next March.

EX-GOVERNOR LUKE P. BLACKBURN is dangerously ill at his home near Leona, Ark. He is seventy-five years old, and has been gradually failing in health for a year or more.

The Indiana Republicans are waking up to a realization of the defeat that seems in store for them. At last accounts the Democrats were confident of plucking the Senatorial plum.

EX-SENATOR McDONALD, of Indiana, isn't troubling himself much over his defeat by Judge Turpin. His legal practice is worth about \$100,000 annually, and he can afford to take things easy.

The question of calling a constitutional convention will be voted on next August. It is to be hoped that the people will look at the matter in the proper light and settle the question by giving it a majority.

COLONEL G. A. C. HOLT, of Calloway County, says he doesn't believe the next Governor of Kentucky has been named. The Colonel is a candidate himself, but, of course, he mustn't have much hopes of success.

DEPUTY UNITED STATES MARSHAL HUGH ROGERS is dangerously ill at Louisville. The wound he received at the hands of the would-be assassin, Howard, at Harlan over a year ago has re-opened, and is giving serious trouble.

Hiscock and Morton were too strong a team for Miller in New York, and the latter will not succeed himself in the United States Senate. Morton saw defeat staring him in the face, and threw his strength to Hiscock, making the latter's "calling an election" sure.

The total assessment of property in the city of Lexington foots up \$10,160,000. Last year it was about \$8,000,000. The Press says the property couldn't be bought for less than \$40,000,000. If that is its fair cash value, the Assessor and the Board of Supervisors have failed to do their duty.

The total assessment of property in Fayette County amounts to \$22,000,000, an increase of \$9,000,000 over that of last year. The Transcript says "the greatest increase was in stocks, bonds, blooded horses and corporations, the latter of which was not included in former assessments. The California horse, Sultan, heads the list and is assessed at \$8,000. King Ban comes next at \$6,900, and they range down to \$500. Thoroughbred mares were averaged at about \$400, and trotting mares about \$300. The Board of Supervisors accepted the value of fine stock as reported by the Assessor."

## Rules From a New Grammar.

[Union and Advertiser.]

Somebody has been getting out a new grammar, which contains several excellent short rules. Among these are the following:

Acoustics is always singular.  
Cut bias, and not cut on the bias.  
Allow should not be used for admit.  
Come to see me, and not come and see me.

Burst is not elegant and is rarely correct.

Almost, with a negative, is ridiculous.

"Almost nothing" is absurd.

The burden of a song means the refrain or chorus, not its sense or meaning.

Bountiful applies to persons, not to things, and has no reference to quantity.

Affable only applies when speaking of the manner of superiors to inferiors.

"Methinks" is formed by the impersonal verb think, meaning seem, and the dative me; and is literally rendered, It seems to me."

Admire should not be followed with the infinitive. Never say, as many do, "I should admire to go with you," etc. This error is singularly fashionable just now.

Loss of Flesh and Strength, with poor appetite, and perhaps light cough in morning, or on first lying down at night, should be looked to in time.

Persons afflicted with consumption are proverbially unconscious of their real state. Most cases commence with disordered liver, leading to bad digestion and imperfect assimilation of food—hence the emaciation, or wasting of the flesh. It is a form of scrofulous disease, and is curable by the use of that greatest of all blood-cleansing, anti-bilious and invigorating compounds, known as Dr. Pierce's "Golden Medical Discovery."

## A REPORTER GATHERS POINTS AS TO A CURIOUS PLACE.

An Immense Building Put to Odd Uses.  
How a Frigid Atmosphere is Obtained—Details of the Cooling Process.  
Articles Stored.

It is expected of a country storekeeper that his stock shall include a little of everything. He is called upon for all sorts of goods, from hardware to hosiery and from borings to fresh eggs. Not infrequently he is banker and postmaster. In short, he is a sort of comprehensive Pooh Bah. But this is always on a small scale. His transactions can hardly be called vast. He is satisfied with a small yearly return. Analogous to this prototype in comprehensiveness, but on a scale which might in comparison be called colossal, is an enormous establishment in a west side street. Banking, warehousing and insurance do not seem very closely allied; yet one has grown out of the other, and in this establishment all three are successfully combined. For twenty-five years this firm has been engaged in the storage business, and so widely ramified and extensive has their trade become that it has forced its projectors to take up collaterally the calling of bankers and insurers. To the general public the most striking feature of this immense depot is the department of cold storage. This has attained a development reached nowhere else in the world. The dimensions of the firm's largest building will indicate its proportions of their trade. The building is 400 by 400 feet. The manager of the insurance department gave the reporter some points as to this curious place.

"In our forty-eight cold storage rooms," said he, "we have more than fifteen miles of distributing pipes. There are three boilers, generating 300 horse power. We use so much water that we have sunk an artesian well in our courtyard at a cost of \$3,000, and we get an unlimited supply of clear water without calling upon the city. The building is provided with automatic fire alarm wires and the doors have burglar alarms. All our partitions and floors are of a patent stone composition. They cost \$70,000 and are absolutely fire proof. For the cooling process we use pure anhydrous ammonia. This ammonia is pumped to the roof and subjected successively to compression, expansion and condensation; then it is forced into small pipes running into large tanks filled with brine. This brine becomes intensely cold and is passed in pipes throughout the system of rooms. The tanks are lined with galvanized iron and are completely water tight. The ammonia comes from the small pipes at a temperature of 10 degrees Fahrenheit.

## ADVANTAGES OF THE METHOD.

"The mechanical appliances would make 30 tons of ice per diem, if used for that purpose. Some of the pipes are continually sheathed in a coating of ice three inches thick. The great advantage of our method over ice is that the temperature is constantly under the immediate and absolute control of the manager, and different temperatures can be maintained in the various rooms. By merely turning a valve, which regulates the flow of the brine, we can get a temperature from 10 degrees Fahrenheit to 45 degrees Fahrenheit. We have a method of ascertaining the temperature of any room at a given time by the use of the thermometer and its registering dial, which cannot be manipulated or doctored, but which tells the unadulterated truth.

"If a patron is afraid of taking cold by stepping, on a summer's day, from an outside temperature of 90 degrees Fahrenheit, he may simply look at the register and see the exact degree of cold to which his goods are subjected. In one room there is space for 30,000 boxes of cheese. Different commodities demand different degrees of heat and cold. For dried fruit 40 degrees Fahrenheit is required; for tobacco not less than 45 degrees Fahrenheit. Fish must not have above 20 degrees Fahrenheit, and butter from 36 to 38 degrees. The egg rooms need 38 to 40 degrees, and fur calls for 40 degrees to prevent the breeding of moths and other insects. Pears demand 34, and lager beer will not be satisfied with a higher temperature than 36 degrees Fahrenheit. We have frequently more than \$4,000,000 worth of goods in store. Twelve elevators are in use. We take no fibrous goods, such as cotton. The risks of fire are too great. We have ice store rooms for butter elsewhere. Ice is used there simply because some persons fear that the butter may be flavored with the ammonia. This would be utterly impossible. But if they prefer ice they can have it."—New York Mail and Express.

## Can't Sell a Player.

CHICAGO, Jan. 21.—President Spalding, of the Chicago club, expressed himself very positively to the effect that the efforts of Manager Mutrie, of the New Yorks, to buy Denny's release from St. Louis, will amount to nothing. "If Mutrie is in St. Louis, to buy Denny's release," said Mr. Spalding, "he might have saved himself the trouble and stayed at home, for the St. Louis club cannot sell a player until the special committee have passed upon the matter."

## Residence Burned.

DUNCAN CITY, Mich., Jan. 21.—E. A. Smith's residence in this city caught fire at 2 o'clock this morning, and was totally destroyed. The inmates barely had time to escape in their night clothes. The loss was \$28,000.

## Death of George C. Howard.

BOSTON, Jan. 21.—George C. Howard, the first impersonator of St. Clair in the play "Uncle Tom's Cabin," died last night, aged sixty-six. He first played St. Clair at Troy in 1832. His wife appeared as the original Topsy and his little daughter as the original Eva.

## Postoffice Burglarized.

## Dr. Franklin's Record in Tennessee.

Among the ablest colored ministers of the South, Dr. B. Andrew Franklin occupies a foremost place. Little more than a year ago he came to Murfreesboro an entire stranger, having been called to the pastoral care of the First Baptist Church. He found the church heavily involved in debt, with scarcely any credit in the town. By his skill and ingenuity, the debt has largely melted away, and one more year's work here would doubtless wipe out the last vestige of it.

In Murfreesboro, Dr. Franklin is respected by both white and colored. Faithful, honest and straightforward in his dealings he generally succeeds in what he undertakes. Both religiously and politically he is an acknowledged leader among his people. Occupying an independent position in politics as he does, he naturally has ample scope, which enables him to exert a wide telling influence. We learn that his "Boss Lightning Cure" is commanding a ready sale in the South.—Rutherford Times, Murfreesboro, Tenn.

Rev. Dr. Franklin, pastor of the First Baptist Church, colored, in this city, who has been spending the holidays at his old home in Maysville, Ky., returned home last week, being the recipient of many handsome and costly presents from his old congregation during his stay, for which he returns his thanks. Since Dr. Franklin has been here, he has worked for the upbuilding of his church and congregation, and has accomplished a great deal, not only for his church, but his whole race. He found his church here burdened with a debt which oppressed them, and the congregation disheartened, which were obstacles the Doctor had to overcome. He has restored confidence, built a parsonage for the pastor, lessened the floating debt of the church, and expects to pay it off entirely, and to see his church and congregation here second to none in doing good deeds. We wish the Doctor success in his undertaking, and commend him to all as deserving of their liberality, and his congregation as worthy of any favor that may be shown them.—Free Press, Murfreesboro, Tenn.

In another column of this paper will be found a notice of "Dr. Franklin's Boss Lightning Cure," the world's great remedy for the cure of rheumatism, neuralgia and all manner of aches, pains, This medicine, of all the patent remedies now extant, is taking the day. Rev. B. Andrew Franklin, M. D., is the inventor and sole proprietor of this celebrated preparation. The miraculous wonders it is now performing among suffering humanity justly places Dr. Franklin in the foremost ranks of the benefactors of the nineteenth century. Every family in the land should procure a bottle of this great medicine. In this great age of humbug and fraud we are free to say that there are many worthless nostrums placed upon the market to "gull" the ignorant and deceive the unwary, but in this instance it is not so.

In the first place, Dr. Franklin is a man of honor and integrity, possessing culture and education to an excellent degree. Truthful in his statements, and faithful in his engagements, he has won success and made his mark in life. Again Dr. Franklin is pastor of the First Baptist Church, Murfreesboro (this State), and also Corresponding Secretary of the Tennessee Baptist State Convention. In Maysville, Ky., where he formerly resided, the Doctor has opened a large manufacturing establishment, where this medicine is prepared and daily shipped to various parts of the United States. During this year Dr. Franklin will appoint one thousand traveling agents to sell this medicine. His income will soon be immense and his name command a million. We have tried the "Boss Lightning Cure" and know whereof we speak; Those wishing to secure an agency for this medicine can do so at once by addressing Dr. Franklin as per advertisement.—Free Lance, Nashville, Tenn.

## An End to Bone Scraping.

Edward Shephard, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, seven bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c per box by J. C. Pecos & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

## WAS IT MURDER?

An Alleged Case of Infanticide at Flemingsburg—Eva Smith in Custody—Her Story.

Last Wednesday morning the dead body of a female white infant was found in the yard of David Willson, at Flemingsburg. A dispatch from there says "it had evidently been strangled and thrown in the yard by its unnatural mother." The conviction at Flemingsburg is that the infant was murdered.

Acting upon information received from that place, Deputy Marshals Dawson and Guilfoile yesterday arrested Eva Smith in this city, who is charged with being an accessory to the crime. The accused was seen at the jail last evening. According to her story, she is twenty-three years of age, but she looks much older. She talked intelligently, and said she was born somewhere in the southern part of the State. Her parentage was not the best, as her father and mother were not married. Some time last fall she came to this city as agent for an attachment to a sewing machine, and for a number of other articles. Three weeks ago she gave birth to a baby—agirl—at the house where she was stopping on West Third street. She charges a man named J. G. Smith with being the father of her child. Smith is agent for sewing machines and the couple have known each other for four or five years. One day last week he wrote her a letter to meet him at Lewisburg. She left here Saturday morning and kept her appointment. Smith met her and the couple went towards Flemingsburg in a buggy. She tried to induce him to provide for her and the child. This he refused to do and she left him. Saturday night was spent at some farm house. Sunday morning she continued her journey, and was soon overtaken by Smith. After talking the matter over, he finally consented to take the child, saying he was not able to keep both of them. She got out of the buggy again a short distance this side of Flemingsburg, and Smith, according to her story, took the child and drove off in another direction. She spent Sunday night at the hotel in that place and returned here Monday night.

The above is the sum and substance of the story she tells. The authorities are disposed to doubt its truth. She was seen with the child, we are informed, Sunday evening late near where its dead body was afterwards found. She exhibited no sign of sorrow at the news and talked over the matter in a very cool manner. It may be that the unnatural mother, wishing to free herself of her burden, left the child in Mr. Willson's yard with the belief that its cries would attract attention, and that a home would thus be found for the unfortunate waif. Her story is a sad one.

The authorities of Flemingsburg are making a thorough investigation of the matter.

Marshal Kendall came down from Flemingsburg last night, and returned to that place this morning with the accused.

### The Columbus and Maysville.

A dispatch from Ripley says: "A few days ago several railroad contractors came quietly into town and went about business in a confidential way, not even making their names known. They interviewed Captain C. W. Boyd, and it now comes out that the latter gentleman proposes to build the C. and M. road from Washington C. H. to Ripley by the last surveyed route. All he requires is a guaranty of \$100,000—\$50,000 from Ripley and \$50,000 from points along the line—the road to be made standard gauge and tralus running by September next."

### Circuit Court.

W. H. Bland, Constable, presented his account of \$2.60 which was sworn to and certified to Auditor.

The grand jury returned the following indictments, and adjourned:

Peter Jones, petit larceny.

Mart Edwards, same offense.

Charles Fields, shooting and wounding with intent to kill.

A. Wetland and John Fansler, selling liquor to a minor.

Same, same offense.

Jacob Helmer, selling liquor without a license.

Jacob Helmer, selling spirituous and vinous liquors without a license.

George T. Wood, same offense.

Same, same offense.

Mrs. Alice Crawford, selling malt liquor to a minor.

Same, same offense.

Same, same offense.

The case of Charles Downing against Mason County and others is still on trial.

The following is the jury in the case:

Calvin Arthur, C. A. Tucker.

John Elliott, Wm. Chancellor.

J. L. Bean, W. S. Osborne.

Wm. Thompson, Thos. Worthington.

CAPTAIN W. H. RATLIFF, a prominent lawyer of Cynthiana, was found dead in his bed yesterday morning.

MRS. THOMAS BERRY died yesterday near Lewisburg, of typhoid-pneumonia. She was sixty-one years old. Her funeral will take place to-morrow afternoon at 2 o'clock from her late residence.

'SQUIRE ROBERTS has mysteriously disappeared from his home at Springfield, Lewis County. Two weeks ago he started out with a gun in hand to visit relatives two miles distant from his home, and has not been seen or heard of since.

MR. R. E. HILDRETH has sold his farm near Elizaville, and will return to this city. He and Mr. C. W. Darnall have rented the Newell property on Second street, adjoining the State National Bank, and will open out a dry goods store in a short time.

In order to make room for spring goods, I have determined to reduce price of stock 20 per cent. For the next thirty days I will offer unprecedented bargains. My patrons are cordially invited to call and examine. Respectfully,  
ANNA M. FRAZAR.

AMERICA DAVIS, colored, charged with petit larceny, was held to bail in the sum of \$50 this morning by Mayor Pearce. She visited some one's chicken roost last night, and was caught by Deputy Marshal Dawson about midnight with one rooster and three fat pullets in her possession.

BILL BATES and Geo. Johnson, charged with murder, have escaped from the Floyd County jail. About a year ago, a reward of \$500 each was paid for their arrest. Their cases have been continued from time to time. The jail door was left open the other day, and they made their escape. Will the Governor issue another reward?

The rumor is current that a young girl was outraged on the ferry-boat Tuesday night. No arrests, however, have been made. The victim of the alleged rape has been dangerously ill ever since. She was away from home that night and is not in a condition, mentally, to give an account of herself. In view of all the circumstances, it seems strange that no arrests have been made.

### Personal.

Mr. Perry Jefferson, of Cincinnati, is in town.

Miss Lillie Langdon, of Philadelphia, is visiting Miss Hattie Hamilton of the Fifth ward.

Miss Cora Garrett, of Maysville, is visiting the family of her brother, R. C. Garrett, in this city.—Carlisle Mercury.

Mr. Phillip Klipp has returned to his station as engineer on the steamer City of Madison, plying in the Cincinnati and Louisville trade.

## ELECTION IN GERMANY.

### THE PROGRESSISTS ISSUE A MANIFESTO OF WARNING.

**Manifesto Issued By Other Parties—An Address to Emperor William—War Inevitable On the Belgian Frontier—Affairs in Ireland—Cable Notes.**

BERLIN, Jan. 21.—The Progressists have issued a manifesto calling upon their partisans to support only candidates opposed to absolute government, and a sham constitution warning them that otherwise tobacco and spirit monopolies and other evils will be introduced in parliament. "We must take a stand," they say, "to maintain the foundation of the imperial constitution to especially universal secret suffrage."

The Conservative manifesto says that the watch word of the struggle must be, "No parliamentary army, but an imperial army."

The National Liberal leaders have issued an address severely censuring the action of the majority of the reichstag, and calling upon National Liberals to elect only men determined to make sacrifices for the security of the empire against foes at home and abroad.

The text of the address of the upper house of the Prussian diet to Emperor William, expressing the willingness of the Prussian people to vote the measure necessary for defending the German empire, is as follows: "Your majesty is the creation of the Prussian army in its present form. By the honor of this army and its allies you have restored the empire to its former might and splendor, and have obtained the peace of Europe many years. The present political relations of the European people are in many respects strained. We may see Germany unexpectedly involved in war. We are deeply moved that you have spared the grief of seeing an unacceptable limit placed on the army bill. Such procedure was contrary to usage, was based upon repeated compromises and led to the dissolution after the reichstag. We assure you of our entire and joyful support and of our gratitude for your faithful solicitude for the army. We are confident that Prussia will consider no sacrifice too heavy which will avert danger from the fatherland by maintaining for it an effective defense."

#### A Different Story From Ireland.

DUBLIN, Jan. 21.—Maurice Murphy, one of the tenants ejected from the estates of Sir Rowland Wynn, at Glenageary, owns twenty-seven cows and has \$500 in cash. The prosperous condition of Murphy does not by any means represent the peculiar standing of the other tenants, but it is believed they are all able to pay their rent. A reporter telegraphing from Glenageary to-day says the people there are much better fed and clothed than many of the brethren in the south of Ireland, and asserts that the land, though poorer, is vastly better than in many other parts of the country. The most of the estate books in the region of Glenageary show that rents have been considerably reduced in the last few years. This correspondent also reports an interview with Rae, the agent of the Wynn estates, in which the latter says the arrears of rent up to May, 1886, aggregated \$6,177, and the estate offered to take half of this amount, but were unable to get it.

#### The Pope's Thanks.

ROME, Jan. 21.—The pope has written a letter to Emperor William of Germany, thanking him for the references in his speech opening the landtag, on the 15th inst., to the increasing friendliness of the relations between Prussia and the Vatican. The pope promises to co-operate with the emperor in bringing negotiations between Prussia and the Vatican to a successful termination.

#### War Inevitable.

BRUSSELS, Jan. 21.—A meeting of the minister of war and the generals of the Belgian army held yesterday, expressed the opinion that war on the frontier of Belgium was inevitable and would probably break out in May or June.

#### Foreign Notes.

The committee of St. James hall, London, have refused to let the building for the purpose of holding a meeting to protest against evictions in Ireland, for the principal reason that they are unwilling to risk a repetition of the disloyal demonstrations which occurred at the recent meeting in that hall, presided over by Mr. John Morley.

The tenants of the extensive Kingston estates in Ireland, who are threatened with eviction, have publicly sold their cattle, a proceeding which the judges have recently declared to be illegal. The proceeds of the sale aggregated \$9,000.

Mr. George J. Goschen, chancellor of the exchequer in the English cabinet, has requested the Conservative electors of Antrim not to keep the vacant Antrim seat open for him, in case he should be defeated in Liverpool.

Franz Niemann Rabe is disposed to accept American offers after the expiration of her agreement with the German theater. The Metropolitan opera house offers Conductor Niemann an engagement for 1888.

The Vienna Tagblatt says that Germany is treating with the Vatican under the terms of the concordate established twenty years ago, while the existing concordate applies to Russia.

It is announced that the dispute between the French and British agents with regard to the occupation of Dongarita has been settled by ordering the agents to withdraw.

It is stated that Emperor Francis Joseph has appointed fifteen new members to the upper house of the reichstag.

#### On Duty Twenty Hours.

New York, Jan. 20.—A dispatch to the Herald from Tiffin, O., says: There came near being another terrible accident on the Baltimore & Ohio yesterday at Republic. An east-bound freight train thundered past the depot when the limited express was almost due, and the operator stopped it only by hurling a stone through the window of the caboose, awakening the conductor, who managed to stop the train and back it on the siding just one minute before train No. 5 rushed past. These were identically the same numbered trains that caused the recent disaster. The engineer had been on duty nearly twenty hours, and did not see the signal.

#### Death of Judge Talcott.

BUFFALO, N. Y., Jan. 20.—John L. Talcott, ex-judge of the supreme court, died at his residence in this city this morning. He was elected a justice of the supreme court for the Eighth judicial district on November 2, 1869, and served for a term of fourteen years. Since his retirement he has lived quietly at his home.

#### Advocating Repeal of High Tariff.

AUSTIN, Tex., Jan. 21.—The senate has passed the house resolution requesting the Texas delegation in congress to advocate the repeal of the high tariff laws. A resolution for an inquiry into the advisability of the state's purchasing the Texas & Pacific railroad at the coming sale of the property was referred to the finance committee.

#### A Millionaire Himself.

DETROIT, Mich., Jan. 21.—Senator Jones, of Florida, in an interview yesterday deplored the tendency of the time toward the choice of millionaires for senators. He thought it denoted a state of decadence and implied a danger of class legislation. Mr. Jones now says he will not go to Washington this winter.

#### The Weather.

"I want something to cure my cough. I have tried our doctor, and almost every proprietary medicine I ever heard of, but nothing seems to do me any good," a lady said to the clerk in a large drug-store.

"Gooch's Mexican Syrup gives the most general satisfaction of any thing we have ever sold, and is pronounced by some of our most prominent people to be the best remedy for coughs and lung troubles ever put upon the market. We sell more of it than all other cough remedies put together. You see our customers risk nothing in buying, as the proprietors authorize all druggists to guarantee it; so if this does not give you satisfaction, we will refund the money. It has made some remarkable cures," he replied.

#### A WORD TO CONSUMPTIVES.

Consumptives, because all other things fail, believe not that Gooch's Mexican Syrup will. CONSUMPTION CAN BE CURED. Tubercular matter is nothing more than nourishment imperfectly organized. Now, if we can procure the organization of this food material so that through the process of electric affinity it may take its place in the system, we can cure the disease. This is just what Gooch's Mexican Syrup does: It at once stops the progress of the disease by preventing the further supply of tubercular matter, for while the system is under its influence all nourishment is organized and assimilated. It controls Coughs, Night-Sweats, and all other symptoms of consumption. GOOCH'S MEXICAN SYRUP HAS CURED THOUSANDS AND IT WILL CURE YOU. This remedy is pleasant to the taste, and may be given to children with perfect safety. It affords immediate relief. Clergymen, lawyers and other public speakers will be greatly benefited by using this remedy to clear and strengthen the voice. This medicine is prepared and every bottle warranted by CINCINNATI DRUG & CHEMICAL CO., 54 Main Street, Cincinnati, Ohio. For sale by all druggists. 50 cts. per bottle. If your medicine dealer hasn't it and won't get it for you, send us 50 cents and we will send a bottle—expressage prepaid to any part of the U. S.
